

Did You See Me Comin'

Did you see me comin'.....did you see me there?
Did you see me comin'.....did you really care.....all along.....all
along?

Did you feel it happen.....did you feel relieved?
Did you feel it happen.....do you still believe?
Now I'm here.....now I'm here

I must have been dreaming....but I was blinded by the truth
And if it feels the same well you can blame it on.....
Blame it on our youth

Did you feel confusion....how was I to know?
Would it be disappointment.....If you let me go?
Let me go.....let me go

I must have been dreaming....but I was blinded by the truth
And if it feels the same well you can blame it on.....
Blame it on our youth

When I was back at school.....I didn't know the way
I'd sit behind you every day but you were so, so far away
I wasn't here and I wasn't there and I wasn't in between
But how was I to know that I was never even seen....by you

Did you see me comin'.....did you see me there?
Did you see me comin'.....did you really care.....all along.....all
along?

I must have been dreaming....but I was blinded by the truth
And if it feels the same well you can blame it on.....
Blame it on our youth
