

How Did You Know?

How did you know.....how did you figure it out.....
That I wanted, I wanted, I wanted you, I wanted you?

And were you surprised.....when you discovered it too.....
That you wanted, you wanted, you wanted me, you wanted
me?

But I'm feeling insecure.....and I really must be sure
The thought of running out the door
Just doesn't turn me on

And how did it feel.....were you on top of the world
Did the Earth shake....did your breath take
Well for God's sake what did it do for you?
I've got to know.....what did it do for you?

I hope that.....you can tell me.....we can be friends
That it won't end
With a fresh start.....and if you're smart
You'll be tellin' me, tellin' me, tellin' me, tellin' me all night
that.....

You weren't surprised.....when you discovered it too.....
That you wanted, you wanted, you wanted me, you wanted
me?
